APPRECIATION LETTER

Research Article: A comparative study of Desarda Repair and Lichtenstein (Mesh) Repair for Inguinal Hernia

Author: Muhammad Rehman Gulzar

Journal Reference: APMC Vol. 13, No. 2, APRIL - JUNE 2019

This is to certify that I have gone through this article very carefully and noted that:-

- 1) The comparative study between Desarda Repair and mesh repair is very well outlined.
- 2) Aims of this study is well described in the abstract and the data analysis correlates well with this.
- 3) The introduction section is good and shows importance of this study.
- 4) Literature review is adequate.
- 5) Outcome of this study is consistent with the findings.
- 6) This study will surely make a contribution to the inguinal hernia repair approaches.

I personally congratulate Dr. Muhammad Rehman Gulzar for conducting such study.

(Prof. Dr. Desarda M.P.)

Dear Prof. Subhani, Chief Editor (APMC)

Research is a passion for many of us as a treating doctor. Innovations and new procedures are always added for the betterment of ailing humanity.

It gives me an immense pleasure to see the original article by DR Muhammad Rehman Gulzar where Desarda Repair has been compared with mesh repair of inguinal hernia in local settings and on our own patients, which is published in APMC Vol.13, No. 2, APRIL - JUNE 2019.

Dr Muhammad Rehman Gulzar Associate Professor of Surgery is a young energetic surgeon and a research scholar. I hope he will work with more zeal and zest in days to come.

The more satisfying aspect is the endorsement by the Innovator Professor Dr MP Desarda. I congratulate Dr Rehman Gulzar on his original work. I congratulate the journal's editorial team along with Chief Editor Dr Mehboob Ahmad Subhani.

The APMC is an esteemed medical journal under the patronage of The Vice Chancellor Faisalabad Medical University Professor DR Muhammad Zafar Chaudhary. and Editorship of Prof. Dr. Ghulam Mahboob Subhani.

Profound Regards
